TUCSON.
MORE POWER TO YOU.

Presenting the 2014 Hyundai Tucson.

At Hyundai, we know who has the power these days: You do. It's the power of choice. As you cross-shop the competition, we can't afford to be the car company that stands still. So we keep moving. Improving. It's why we've upgraded our Hyundai Tucson with two more powerful engines for 2014. Whichever power source you choose, you can expect refined, highly responsive and remarkably efficient performance.

It's why all Tucson models now come standard with SACHS® ASD (Amplitude Selective Damping), a suspension design that creates a ride so smooth – and handling so precise – we use it on our finest luxury sedans. It's also why Tucson's alluring design continues to evolve, with standard features like new projector headlights with LED accents and redesigned 17" alloy wheels. There are also plenty of options for adding functionality and style, like LED taillights or a panoramic sunroof that now facilitates side roof rails.

Inside, Tucson now comes standard with technology like voice-command controls and wireless audio streaming for Bluetooth®-enabled phones.[1] Also standard: Refinements like two-stage reclining rear seats, steering wheel audio and cruise controls, and illuminated front cupholders.

For the first time, Tucson Limited is also available with three years of Assurance Connected Care service powered by Blue Link,® our innovative suite of vehicle communications technologies that bring infotainment, safety and service together in one highly intelligent system.[2]

Other trademarks are those of their respective owners. [2] Assurance Connected Care requires active Blue Link subscription. Assurance Connected Care includes 3 years of the Blue Link Assurance Package. Three-year term starts from the new-vehicle date of first use and is available for new-vehicle purchases and leases on or after May 16, 2013. Only use Blue Link and corresponding devices when safe to do so. Cellular and GPS coverage required. Blue Link available on most 2013 and 2014 Hyundai vehicles. Features and fees vary by subscription plan. For more on details and limitations, visit Hyundai.com or your authorized Hyundai dealer. Blue Link is a registered trademark of Hyundai Motor America. Hyundai is a registered trademark of Hyundai Motor Company. All rights reserved. ©2013 Hyundai Motor America. Blue Link service works using CDMA based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage, particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For additional details and system limitations visit HyundaiBlueLink.com.

[1] SiriusXM Satellite Radio and NavTraffic subscriptions sold separately or as a package after trial period. If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. Fees and programming are subject to change. XM satellite service is available only to those at least 18 years of age in the 48 contiguous USA states and DC. SiriusXM Internet Radio service is available throughout our satellite service area and in AK, HI and PR. © 2013 Sirius XM Radio Inc. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. [2] Remote Vehicle Start is only available for push-button start equipped vehicles with an automatic transmission. Not available on all models. [3] Tucson Limited model.

TUCSON LUXURY

PROOF THAT YOU CAN'T SPELL FUNCTIONAL WITHOUT F-U-N.

With more passenger volume than Nissan Rogue or Ford Escape, and up to 55.8 cu-ft of rear cargo space, people love our Hyundai Tucson for what it can do. But they also love how Tucson does it all – by never forgetting that functionality can be fun. It's why the two-stage reclining 60/40 split rear seats add more passenger comfort and storage versatility. It's why the available navigation system with XM NavTraffic® now uses a larger 7" touchscreen display, so it's easier for the driver to read.[1] And why Hyundai Assurance Connected Care with Blue Link telematics comes standard with a complimentary 3-year subscription on Tucson Limited.

Need further evidence Tucson knows how to have fun? Its list of available features includes a power panoramic sunroof and heated front seats. The available dual-zone automatic temperature control includes a CleanAir Ionizer. Even the front windshield wiper refuses to be boring – it's got a built-in de-icer.

ENHANCED AUDIO Tucson's available 360-Watt premium audio system uses 7 speakers, including a subwoofer. And it lets you get your music from multiple sources. There's SiriusXM® or Bluetooth® streaming from your compatible device. A USB jack lets you plug those same devices directly into Tucson's audio system. Your selections appear on a 4.3" or available 7" color touchscreen – the same screen used to display the view from the rearview camera.

HYUNDAI BLUE LINK Our innovative telematics let you search for points of interest using voice commands and download them to the navigation system for turn-by-turn directions. If your Hyundai is stolen, Blue Link can immobilize it. Teenager borrowing the car? Geo-Fence, Speed and Curfew Alert features let you rest easy. Blue Link even has a mobile app that lets you lock, unlock and start your Hyundai remotely.[2] For a full list of features, visit HyundaiBlueLink.com.

DESIGN & TECHNOLOGY HIGHLIGHTS

(See specifications section for availability by model)

- POWER PANORAMIC SUNROOF
- 7" TOUCHSCREEN NAVIGATION WITH XM NAVTRAFFIC®
- STEERING WHEEL AUDIO/CRUISE/ BLUETOOTH® PHONE CONTROLS

- REARVIEW CAMERA
- TWO-STAGE RECLINING 60/40 SPLIT FOLD-DOWN REAR SEATS
- HEATED FRONT SEATS
- FRONT WINDSHIELD WIPER DE-ICER
- PROXIMITY KEY ENTRY WITH PUSH-BUTTON START

Information Provided by: DEALER E-PROCESS

[1] EPA mileage with front-wheel drive. Estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and vehicle's condition. [2] Electronic Stability Control cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. The Traction Control System is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

TUCSON ENGINEERING

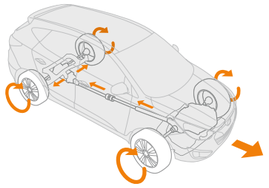
AGILITY : YOU FEEL IT. WE THINK IT.

For such a spacious vehicle, Tucson can easily be maneuvered in tight spaces. U-turns? No problem: It has a turning radius more than two feet tighter than the 2013 Honda CR-V.

But agile describes more than the handling that results from an independent rear multi-link suspension and state-of-the-art SACHS® ASD shock absorbers that seamlessly optimize handling control and ride comfort. It describes the thinking of Hyundai engineers: Don't follow, innovate. In Tucson, they've used an advanced technology called Gasoline Direct Injection (GDI) to make our engines some of the most powerful in their class – while still achieving remarkable fuel economy. The upgraded 2.0L powerplant delivers 164 HP with an EPA-estimated 29 MPG highway rating. The available 2.4L engine, 182 HP with an EPA-estimated 28 MPG highway.[1]

Another innovation, Active ECO technology, delivers up to a 7% fuel efficiency gain when driving in Active ECO mode. Power is transferred to the pavement with a 6-speed SHIFTRONIC® automatic transmission that lets you choose whether you want to shift actively, or sit back and relax.

CONFIDENCE, UPHILL OR DOWN
Tucson is the only vehicle in its segment with standard Downhill Brake Control, which helps maintain control and speed when easing down steep descents. Also standard is Hillstart Assist Control, which helps minimize backward rolling as you release your foot from the brake on uphill slopes.



ALL WHEEL GRIP To help optimize traction when the going gets tricky, Tucson's available All Wheel Drive continuously varies the torque transfer between front and rear wheels automatically. Drivers can also select the 50/50 torque-split setting to balance power between front and rear wheels in snow or deep sand conditions.

DISTINCTIVE ENGINEERING HIGHLIGHTS
(See specifications section for availability by model)

- MORE POWERFUL ENGINE DESIGNS WITH GASOLINE DIRECT INJECTION
- REAR MULTI-LINK SUSPENSION WITH SACHS® ASD SHOCK ABSORBERS
- ELECTRONIC STABILITY & TRACTION CONTROL SYSTEMS[2]
- NEW 17" OR 18" ALLOY WHEELS
- 6-SPEED AUTOMATIC TRANSMISSION WITH SHIFTRONIC®
- VEHICLE STABILITY MANAGEMENT
- ADVANCED ELECTRONIC AWD SYSTEM
- PROJECTOR HEADLIGHTS/LED ACCENTS
